

25th August 2018

TO WHOMSOEVER IT MAY CONCERN

M/s. BioWater Treatment Systems LLP, have installed and commissioned the **Bio-Microbics** Sewage Treatment System at our labour quarters at Waghodia, Gujarat.

The system has been running since August 2015 and is continuing to prove its promised reliability with no operator at site and minimal maintenance. We have always received excellent service from M/s. BioWater Treatment Systems LLP and would highly recommend them to others.

For Baroda Moulds and Dies
