TO WHOMSOEVER IT MAY CONCERN

This is to certify that we had installed a Sewage Treatment System from **Bio-Microbics Inc. (USA)** in January 2014.

The system has been performing well and continues to prove its promised reliability with no operator at site and minimal maintenance. Being satisfied, we have installed a second system for our plant expansion, which was commissioned in Feb. 2019.

We have always received excellent service from **BioWater Treatment Systems LLP** and would highly recommend them to others. We found the team technically sound and highly motivated. Their workmanship is of good quality and execution of the project to our satisfaction and in a professional manner keeping in mind the time schedule.

For Roechling Engineering Plastics (I) Pvt. Ltd.
